About STAM

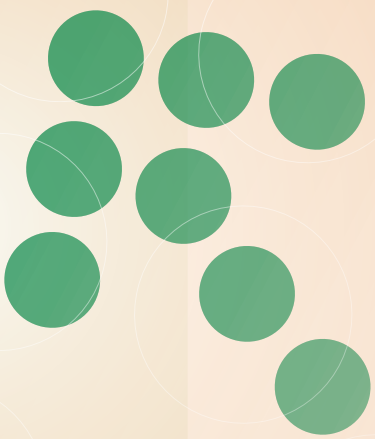
STAM Interactive Solutions is a leading developer and provider of Online Training Courses on Security Technology. It is available 24/7 - making it the most cost effective solution for anyone who wants to improve knowledge or skills on the latest security technology - an individual or everyone in the company.

For Whom? These courses are suitable for everyone in the security industry including

- Installers, System Integrators, Suppliers, Consultants and End Users
- Technical and Non-Technical people
- New and Existing Staff

Key Features and Benefits

- **Anywhere Anytime learning with internet connection**
- **24x 7 Availability**
- **Interactive Audio VIsual training content**
- **Online post test and online certification**
- **Download course notes as reference**
- **Over 15000 satisfied students from over 60 countries**
- **Decide own milestone with self paced learning**



STAM Online Knowledge Testing Center

This is a NEW and FREE service to test knowledge on CCTV, Digital Video and IP Networking. It is suitable for an individual or a company.

A company can setup a corporate account FREE OF COST and take advantage of the many features and benefits. You can enroll your staff to take these tests and track their results from a central location. This will help to understand the knowledge level within the company and also identify staff that needs additional training.

Testimonials

The course is very good and easy to navigate. It's nice to be able to take courses on the internet. I run an electrical company and my time is limited.

Paragonele

The learning program was very easy to use and understand and would be very easy for someone who knows nothing about networking to follow. I was very pleased with the user interface.

G.khela

I think every installer and sales person of CCTV should take this course. This is a great course for anyone, no matter what your experience with CCTV is. I recommend it to everyone.

Westelcom

Testing and Certification:
Each of the STAM courses has an online testing program
•Pre-Test • Quizzes • Post-Test

Certificate:
Any student, who gets more than 65% in the Post-test, can print their own online certificate which is recognized by many leading associations.

Bulk Purchase:
For major organizations that purchase bulk licenses, the administrator can track the students test results from a central database.
